OBJECTIVE

As a dedicated Computer Science student, I have been actively working as a Software Developer since 2020, where I have cultivated extensive expertise in full-stack development, API integration, and cloud computing. My experience includes building scalable serverless applications using AWS Lambda with Laravel Vapor and managing robust CI/CD pipelines with Jenkins, ensuring seamless and efficient deployment processes.

Although I am currently pursuing my university degree, my journey as a developer has already equipped me with a depth of real-world experience and technical skills that enable me to deliver innovative solutions. I am driven by a passion for technology and a commitment to excellence, constantly seeking new opportunities to learn, grow, and contribute effectively. I am eager to bring my unique blend of hands-on experience and academic knowledge to a forward-thinking organization, where I can add value and drive impactful results.
